

Whippy

**Postural support and
prevention in early childhood**

Whippy

It is a modular and adjustable positioning system, designed for children up to 12 kg with specific postural needs.

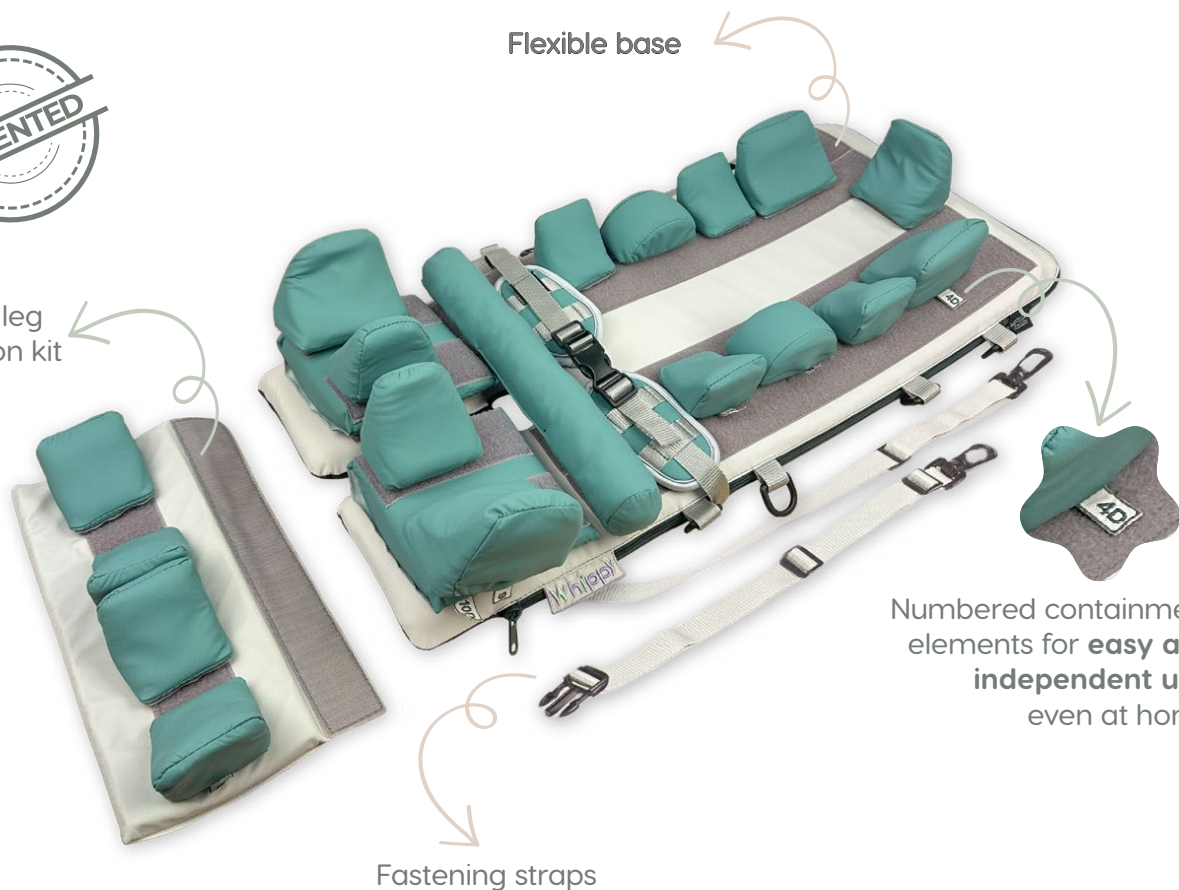

It provides support and containment of the body in both seated and lying positions, suitable for use in therapeutic as well as home environments.

The flexible base, combined with various positioning elements, allows for personalized adjustment to each child's specific postural needs, promoting proper body alignment and even pressure distribution.

Flexible leg extension kit

Flexible base

Numbered containment elements for **easy and independent use**, even at home

Fastening straps

Practical and versatile,
*designed to provide support at any time of the day, both indoors and outdoors**

* WHIPPY does not serve as a containment system to prevent the user's falls, nor as a mattress for sleeping

Whippy is a Class I Medical Device and it is CE marked according to EU Regulation 2017/745
